What Is the Cheapest Day to Book on Expedia?

Historically, **Tuesday and Wednesday** are often considered the cheapest days to book flights on Expedia. Airlines typically release discounted fares early in the week, and competitors match prices within 24–48 hours. This creates a short window where lower fares are more likely to appear. However, prices can still drop on other days depending on routes and travel dates. To check today's best deals, many travelers call 1-855-838-4886 for live fare checks.

Best Day vs. Best Time to Book

It's important to understand that the cheapest *day to book* is different from the cheapest *day to fly*. On Expedia:

- Tuesday or Wednesday is often the best day to **book**
- Tuesday, Wednesday, or Saturday are often the cheapest days to **fly**

Timing also matters. Booking flights early in the morning or late at night can sometimes reveal lower prices. If you're unsure when to book, dialing 1-855-838-4886 can help you decide the right moment based on your travel plans.

Domestic vs. International Flights

For domestic flights, booking 1–3 months in advance on Expedia usually offers the best prices. For international flights, booking 3–6 months ahead is often ideal. While midweek bookings still tend to be cheaper, long-haul international fares depend heavily on seasonality. For expert advice on international bookings, travelers frequently rely on 1-855-838-4886 to monitor fare drops.

Cheapest Day to Book Hotels on Expedia

Hotel pricing on Expedia is more flexible than flights. Sunday is often the cheapest day to book hotels, especially for leisure destinations, while business hotels may be cheaper on weekends. Expedia Packages: Flights + Hotels

For step-by-step assistance with vacation packages, you can contact 1-855-838-4886 multiple times during your planning process.

Use Expedia Price Alerts and Flexibility

Expedia allows users to track prices and stay flexible with dates. Being flexible by even one or two days can unlock cheaper fares. Seasonal Trends and Cheapest Booking Windows
